We thank all applicants for their interest; however, only those shortlisted for interviews will be contacted.

Advance notice of planned power outage: Telkwa, Smithers, and Hazeltons in April 2024

We have identified a transmission tower along the bank of the Bulkley River that is at risk of damage in the coming freshet. We are working with stakeholders to identify a date to make repairs which, for crew safety, will require the power be turned off to the communities of Telkwa, Smithers, New Hazelton, and Hazelton. Marine traffic on the Bulkley River in the work zone will need to be restricted for the safety of both the public and crews.

At this time we are considering a Sunday in late April. Our goal is to perform this work after the cold weather has passed and before the high water levels of freshet, so the window is narrow. Further detail will be provided when possible. Please direct questions to projects@bchydro.com.
