Quote of the Week
This was 1990, the year that Communism died in Europe, and it seemed to me strange that in all the words that were written about the fall of the Iron Curtain nobody lamented that it was the end of a noble experiment. I know Communism never worked and I would have hated living under it myself, but it seems to me nonetheless that there is a kind of sadness in the thought that the only economic system that seems to work is one based on self-interest and greed.

Riddle

Last week's answer: A teapot.
• They can be harboured, but few hold water. You can nurse them, but only by holding them against someone else. You can carry them, but not in your arms. You can bury them, but not in earth. What are they? *Answer next week.*

Fun Facts

In 2008 the Slovakian women's hockey team beat Bulgaria 82-0 in a qualifying game for the 2010 Vancouver Winter Olympics Games. The shots on goal were 139 to 0. On average Slovakia scored a goal every 44 seconds, which caused problems for the game announcer, who had to announce details of each goal in English and Latvian. Slovakia would go on to qualify for the Winter Olympics, but lose all its games and finish last. In Slovakia's first game in Vancouver, Canada beat them 18-0, an Olympic Games record, scoring its first goal 99 seconds into the first period.

Ally

We are looking for a long-term foster home for our super sweet Ally, who has been with us for a year now. She is an 11-year-old Boxer mix who came into our care after her owner passed away. She is the hiking queen and is easily tackling trails such as Call Lake and Malkow Lookout, longer hikes could leave her feeling a little stiff. Once her adventures are over Ally wants all the snuggles and cuddles. Ally can be quite dominant with other dogs which has gotten her into trouble in the past, and she would do better in a cat free home. Ally loves people of all ages and is super gentle with children. She does have allergies and is on hypoallergenic diet. We don't want Ally to spend her golden years at the shelter, so we are offering to discount her adoption fee, or consider a long-term foster situation where we will supply her food and cover medical costs. Can you provide this girl with a home of her own? Email info@nwas.ca

RESIDENTS, BUSINESSES AND ROAD USERS OF THE SUSKWA VALLEY NEED YOUR SUPPORT

The current Bulkley River Bridge crossing has been the only access to the Suskwa since 1967. It now needs to be replaced. The Ministry of Forests (Prince George and Victoria Offices) proposes to close the existing access to the Suskwa and install a NEW bridge and NEW forest service road (FSR) 16 km on the east side of the Bulkley River along 16 km of gravel forest service road where it will join Highway 16 near Porphyr Creek.

This option was chosen without any formal open public engagement or meaningful consultation with residents, local businesses, municipal governments, Regional District Kitimat-Stikine, local First Nations bands, any affected hereditary chiefs or the general Hazelton public. No one has expressed any support for this option!

In 2021, as a solution residents and the territorial Chief for the lower Suskwa proposed that a new bridge across the Bulkley River be installed just before Mudflat Creek that bypasses the steep hillside and narrow roadway adjacent to the Bulkley River with an upgraded/enhanced junction at Highway 16. Forestry failed to seriously consider this as an option.

NO ONE on the Suskwa is in favour of the proposed Porphyr Creek route! Currently, the Suskwa encompasses 51 people with property interests, 19 families with 11 children who have built their livelihoods there, 41 deeded properties, and 17 Suskwa businesses, several of which will unfortunately be forced to relocate or close. This Project will also not just affect residents and other road users but also will detrimentally affect the economic welfare of all communities and businesses of the Hazeltons.

Very few Hazeltonians know about this project. It has been the best kept secret in the Hazeltons since 2016. Why you ask? We can but surmise that Forestry's decision-makers have known since 2014 about PRGT's intent to construct a pipeline in our area. The existing access is slated in PRGT's 2014 Environment Assessment certificate as one of three MAIN transport routes for delivering PRGT equipment and supplies to the pipeline corridor. Forestry has not mentioned the pipeline nor its' impact on this Project in any of their reports. It bears asking... "Has PRGT been informed or is Forestry trying to ram this project through as a taxpayer paid project with NO additional public notifications and consultations by PRGT?"

We hope you will come out and support us at this meeting.
