RIVERS MASSAGE THERAPY

Thumbs up to SPCA for working diligently to capture the dogs that were running loose. Very sad situation no doubt but it's a relief to know that our pets are safe now.

THIS IS WHY YOU SHOULD EAT BITTER FOODS

The more bitter, the better! The moment your tongue detects bitter flavors, your liver and pancreas jump into action, triggering the release of digestive enzymes to enhance nutrient absorption.

Bitters, like burdock and amargo, are powerful allies for digestion, helping to break down food more efficiently. Beyond digestion, they also support the liver's natural detoxification process, aiding in the elimination of excess hormones and toxins. Adding bitters before meals can be a simple yet powerful way to keep your digestive system running smoothly!
