"Outlandish" – describes things that are incredibly strange or unusual. Bizarre is similar.

In Loving Memory Anthony

Anthony was a beloved son, brother, uncle, grandson, and friend whose love, laughter, and adventurous spirit touched the hearts of those who knew him.

He loved four-wheelers, computers, and fixing things. When he wasn't out on an adventure, he could often be found upgrading his computer or working on his car.

At just 24 years old, Anthony left us far too soon. He will be lovingly remembered by his parents, Donny and Bobbi; brothers, Bradley and Shane; grandparents, Dick and Maryann Heggie and Jim Flynn; and his family and friends. He was predeceased by his Nana, Kelly Flynn.

A Heartfelt Thank You

The Flynn family sincerely thanks everyone who brought food, helped with the memorial, offered a listening ear, or simply was there. Your kindness and support have meant so much during this difficult time.

Forever loved, forever remembered

Fun Fact

Peanuts are not actually nuts but instead considered to be legumes, relating them to the beans and lentils family. Once the peanuts yellow flowers are pollinated, the flower stalk will bend towards the ground, pushing the fertilized ovary into the soil where the pod will then develop. They are a good source of vitamins and minerals. It takes about 549 peanuts to make one 12-ounce jar of peanut butter. Astronaut Alan Shepard carried a peanut with him all the way to the Moon during the Apollo 14 mission. The peanut was given to him by Jay Fiondella, a bar owner, joking that he wanted the first "astro-nut". Once Shepard returned, an affidavit was signed confirming that the peanut had been to the moon and is now on display at the Smithsonian National Air and Space Museum.
